

# BURST OF FLAVORS, JUST A LITTLE MORE MAGIC.

# ABOUT US

Food is survival, pleasure, joy, culture, and nutrition.

At Little More, we truly believe that food has the potential to connect humans across the barriers of countries, cultures, languages, and regions.

We don't see food as survival or just as a mode of gaining strength, but as Indians, food and cooking food are imbibed in our culture; it is what binds us together and, at the same time, is the reason for our diversity.

At Little More, we believe food is sacred, and the taste and delight it provides even more so. And our versatile range of products just proves that. From mayonnaise to ketchup, we promise a taste that will make you say "Give me a little more".
